Tech Lead / Lead Software Engineer

Profile

I am a software engineer with 15 years of experience building tech solutions across several industries with a strong entrepreneurial focus. I am equally comfortable with hands-on delivery (i.e. writing code) and managing engineering teams (i.e. helping other developers write code). I help organisations embrace new technologies to solve challenging real-world problems and launch successful products that customers love.

Work experience

Tech Advisor / interim CTO (part-time) for an early-stage startup

Emani.io, London, United Kingdom – November 2020 to March 2021 (emani.io)

Hiring an engineering team, building product road map, tech strategy and delivering the core product.

→ *Technology*: AWS, Serverless (Lambda) TypeScript, Node.js, React, DynamoDB, GraphQL.

Senior Backend Engineer (contract based) for a US-based life sciences startup

ApprenticeFS, London, United Kingdom – Sept. to Dec. 2021 (apprentice.io)

Building new features for an intelligent pharmaceutical manufacturing execution system SaaS platform.

→ *Technology*: TypeScript, Node.js, Docker, Angular12, MongoDB, NX, AWS, Elasticsearch.

Lead Software Engineer (contract based) for a global publishing house

Conde Nast, London, United Kingdom – Mar. to Sept. 2021 (condenast.com)

Building and Improving a content migration tool for Conde Nast's in-house engineering teams.

Working for a software consultancy ([YLD](https://yld.com)) on improving a set of APIs and tools automating content migration for 50 publications to a new tech stack. Writing code and delivering new features. Code reviews.

→ *Technology*: Node.js, TypeScript, GraphQL, Express, React, Docker, Kubernetes, AWS, CircleCI, OAuth

Senior Backend Engineer (contract based) for a content marketing agency

Progressive Content, London, United Kingdom – Sept. 2020 to Feb. 2021 (progressivecontent.com)

Building a microservices backend for a UK-based banking client's content marketing CMS.

→ *Technology*: Serverless (Lambda), TypeScript, GraphQL, Node.js, Docker, Jenkins, AWS, Elasticsearch.

Mentor, since 2017

→ Mentoring for the tech lead curriculum for the primary french online education platform [Open Classrooms](https://openclassrooms.com)
